Summary

Aspiring Data Scientist with strong foundations in C++, Python, and Data Structures. Passionate about solving real-world problems using Machine Learning and data-driven insights, with proven project and hackathon experience.

Skills

Programming: C, C++, Python, HTML, CSS, JavaScript

Developer Tools: GitHub, VS Code

Database: MySQL

Tools: MS Excel, Google Sheets, Tableau

Coursework: Data Structures, Algorithms, OOPs, Operating Systems, Machine Learning

Soft Skills: Leadership, Teamwork, Innovative, Problem Solving, Collaborative, Conscientious

Projects

Movie Recommender System | *Python, Scikit-learn, Streamlit*

- Built a recommender system to suggest movies based on user preferences.
- Implemented content-based filtering using similarity measures.
- Integrated Scikit-learn and Joblib for machine learning model handling.
- Developed an interactive Streamlit application with TMDB API for fetching posters.

AI Resume Screening system | *Python, Scikit-learn, NLP, Streamlit*

- Developed an AI-based Resume Screening System for automated candidate classification.
- Implemented NLP and Machine Learning techniques for resume analysis and prediction.
- Built an interactive web app using Streamlit for real-time resume screening.
- Enhanced recruitment efficiency by reducing manual screening time and improving shortlisting accuracy.

Certifications

- **C++ (Beginner to Advanced) – Udemy:** Learned core C++ concepts including OOPs, STL, and problem-solving techniques through hands-on coding exercises.
- **Data Visualization – TATA Forage:** Gained practical experience in analyzing datasets and creating visual dashboards to communicate business insights.
- **GFG 160 Days of Problem Solving:** Completed an intensive problem-solving program focusing on data structures, algorithms, and coding interview preparation.
- **Excel Skills for Business – Forage:** Developed proficiency in Excel functions, data analysis, and spreadsheet-based business problem solving.
- **JavaScript – Udemy:** Learned core JavaScript concepts including DOM manipulation, functions, and event-driven programming for web development.

Achievements

- Finalist, SBI Life Hack-AI-Thon – showcased AI-driven solutions.
- Earned LeetCode 100 Days Badge for consistent problem solving.
- 2nd position in internal hackathon of SIH(Smart India hackathon)
- 5th position in Techclasher hackathon organised by GNIOT Engg.

Education

IEC College of Engineering & Technology <i>B.Tech in Information Technology</i>	2023 – Present <i>CGPA: 8.5 / 10</i>
SJS Public School <i>Class 12 (Intermediate)</i>	2022 – 2023 <i>Percentage: 86%</i>
SJS Public School <i>Class 10 (Higher Secondary)</i>	2020 – 2021 <i>Percentage: 94%</i>
